The source of the light is modern, high efficient LED diodes.

In comparison with traditional bulbs, LED diodes have characteristic very clear, closer to daily colour of light.

The sheaf of the light is very even without circles and smudges characteristic for traditional bulbs.

New generation LED diodes secure the combination of maximum clarity and durability.

## Stanley HIGH POWER TRIPOD FLASHLIGHT

- Simple 3-position switch lets you choose Low, High or Off
- Durable, impact-resistant design with a graphite ABS composite head and shatter-resistant polycarbonate lens
- Low-power indicator light flashes so you're never caught in the dark
- Bright-white 1.25 Watt LED light
- Runs on 3, 6, or 9 AA batteries (not included) depending on usage requirement
